

Good morning/afternoon

My name is _____, I am calling from your parish name. We wanted to reach out to you today to see how you and your family are doing.

This will open the discussion a bit, it will be different with each phone call, be yourself (friendly, compassionate, kind)

Things you can ask:

Do you have local family support?

Are you in need of assistance? *(if yes, write it down so we can follow up-be specific)*

Tell them this:

We do not have an email for you on file in our parish database. Do you have email and would you like us to communicate with you in that way (we are sending e-newsletter updates a couple of times a week)? *If yes, please take down their email address clearly, we will add it to our database.*

Let them know we are communicating with our parishioners via the parish app, e-newsletter, the website and Facebook/Instagram. Answer any questions regarding this or refer them to our office Your parish phone number or my email Your parish email if they need assistance and you aren't able to help them.
