

New Hampshire Specialty Crop Grant Program ***2021 Request for Proposals***

Program Overview

The New Hampshire Department of Agriculture, Markets & Food (NHDAMF) is pleased to announce the competitive solicitation process to award Specialty Crop Block Grant Program (SCBGP) funds for projects that solely enhance the competitiveness of specialty crops in New Hampshire. The United States Department of Agriculture (USDA)/ Agricultural Market Service (AMS) has allocated these funds to the states and NHDAMF will be administering its portion funds as competitive grants.

The requirements and procedures listed below are based on federal rules and regulations for SCBGP funding. More information is also available at

<http://agriculture.nh.gov/divisions/agricultural-development/grant-program.htm>

Purpose: The New Hampshire Department of Agriculture, Markets & Food (NHDAMF) is eligible to receive funding from the United States Department of Agriculture (USDA), Agricultural Marketing Service (AMS) under the 2021 Specialty Crop Block Grant Program (SCBGP). The NHDAMF wishes to offer eligible New Hampshire organizations the opportunity to apply for a portion of these funds under the **New Hampshire Specialty Crops Grant Program** to conduct projects that enhance the competitiveness of NH Specialty Crops. Specialty Crops are defined as: fruit, vegetable, nursery, floriculture, herb, maple, Christmas tree and honey crops. For a complete list of eligible and ineligible crops visit the USDA AMS website at

<https://www.ams.usda.gov/services/grants/scbgp/specialty-crop>

Grant projects may focus in the following areas to enhance NH Specialty Crops, but are not restricted to these areas exclusively:

- Addressing local, regional and national challenges confronting specialty crop producers, including topics such as Food Safety,

Pest and Disease Prevention and Control, Technology Development

- Research and development relevant to specialty crops
- Leveraging efforts to market and promote specialty crops
- Expanding availability and access to specialty crops

Funds: All reasonable proposals with appropriate format and documentation will be considered. Selection is a competitive process based on the merits of the application and support materials. No match is required by the recipient, but in-kind or other services will enhance the application. A formal announcement from USDA of the 2021 program is expected by the end of March. To allow as much time as possible for groups to prepare proposals New Hampshire is announcing its 2021 program now, but final availability of funds depends on USDA. A total of approximately \$275,000 is expected to be available for the 2021 New Hampshire program.

Selected applications will be included in the New Hampshire state application package to USDA for the 2021 SCBGP funds. Applicants that are selected to be part of the New Hampshire state application will be notified prior to the submission of the application to USDA. Award notification from USDA is expected in September of 2021. Projects must gain final spending approval by the New Hampshire Governor & Executive Council. Project leaders may be asked to attend the Governor & Executive Council meeting where the project will be discussed, to answer any project specific questions. Plan on funding being approved **no sooner than March of 2022** to start your projects.

Eligibility: NHDAMF is seeking proposals from eligible commodity groups, agriculture organizations, colleges and universities, municipalities, state agencies, and non-profit organizations for this grant program, provided their proposals meet all the specifications in this Request for Applications and the USDA's Notice of Federal Assistance. These projects must aim to enhance the production and competitiveness of New Hampshire specialty crops. In order to be eligible to participate, applicants must reside in, or their business or educational affiliation must be in the State of New Hampshire. Individual businesses are not eligible.

Selected applicants must have a Data Universal Numbering System (DUNS) number and provide the number to NHDAMF. Failure to do so will result in withdrawal of any awarded grant. Obtaining a DUNS number is free for all entities doing business with the Federal government. For information about applying for a DUNS number, please visit the Dun & Bradstreet online registry at <http://fedgov.dnb.com/webform>.

Grants are not available to offset the grantee's normal operating expenses. Funding is not available for political support purposes or memberships in professional societies or trade organizations. Grant funds may not be used for programs the applicant is already funding. Funds may not be used for construction purposes. Funding is not available for individuals or businesses (must be a recognized entity as described above). See more eligibility information at: <http://agriculture.nh.gov/divisions/agricultural-development/grant-program.htm>.

Preference will be given to those proposals that appear to give the broadest benefit to the New Hampshire Specialty Crop industry. Projects must be completed by September 29, 2024.

Projects cannot begin until the USDA has made their official award announcement (expected in September 2021) and approvals have been obtained from New Hampshire authorities. Do not plan on funds being available for the project until **March of 2022, at the earliest**. The project final report will be due in December, 2024 (if the project is completed in 2022 or 2023, the final report will be due that year).

Accounting: Applicants shall maintain an accurate record of expenditures incurred and shall submit, annually and upon completion of the project the following:

- A full financial statement summarizing expenditures
- Copies of all paid invoices with copy of canceled checks attached
- A report on the project and its results in terms of objectives stated
- Copies of material produced, when feasible

How to Apply

To apply: All applications must be digitally submitted **by 4 pm on April 30, 2021** with the designated information and format as indicated below. Applications must be submitted providing the requested information and precisely following the USDA SCBG application format.

Application must include:

1. Completed cover page
2. Completed Project Profile Template
3. Any support documents
4. 4 printed copies of entire application (see below)

All documents and instructions are available on the NHDAMF website:

<http://agriculture.nh.gov/divisions/agricultural-development/grant-program.htm>

Please submit your proposal digitally in MS WORD (or compatible) format only, using the provided USDA SCBG Project Profile Template. No PDFs. Do not use excessive formatting—no page numbers, footnotes, corporate headings—please stick to the basics. Selected proposals are incorporated into a State Plan document to be sent to USDA digitally, again, following a specific format. Send to gail.d.mcwilliam.jellie@agr.nh.gov.

Additionally, four (4) printed copies of the entire proposal must be received in our office no later than 4 pm on May 3, 2021.

Mail to:
2021 SCBG
NH Dept. of Agriculture, Markets & Food
PO Box 2042
Concord, NH 03302-2042

Or deliver to (please call ahead to 271-3551 to deliver as the building is currently closed to the public due to COVID restrictions):
NH Dept. of Agriculture, Markets & Food
25 Capitol St.
Concord, NH 03301

Application Evaluation

All eligible applications will be reviewed by a selection committee and recipients chosen on the merits of the project as put forth in the application. Selected applications will be submitted to USDA AMS as part of the New Hampshire state application for the 2021 SCBGP. The state application is due to USDA on May 27, 2021. There is no guarantee of project funding until the determination of USDA AMS and final approval by the New Hampshire Governor & Executive Council.

Selection will be determined based on how well the application meets the following:

1. Does the application meet all the submission requirements?
2. Does the project increase the competitiveness of specialty crops? How?
3. Is the project needed by the industry?
4. Does the project affect specialty crops as a whole and not an individual in any way? Does the application elaborate on how that will be accomplished?
5. Is there a well constructed budget to show in the highest detail possible how funds are to be expended?

All grant recipients will be required to sign an official State of New Hampshire agreement with the NHDAMF indicating their commitment and responsibilities toward completing the project in a manner consistent with state of New Hampshire and USDA policies. Recipient organizations must be registered with the NH Secretary of State (or could register) before final approval and fund distribution. NHDAMF is authorized to view all project details and certify the project as complete. Semi- annual, annual and final written project reports are required and are to be submitted following a specific format. Payment of funds to the applicant may be made in installments contingent upon satisfactory completion of the project tasks.

For more information, contact Gail McWilliam Jellie at 271-3551 or gail.d.mcwilliam.jellie@agr.nh.gov.
