The Wall That Heals is a three-quarter scale replica of the Vietnam Veterans Memorial along with a Mobile Education Center. The traveling exhibit honors the more than three million Americans who served in the U.S. Armed Forces in the Vietnam War and it bears the names of the more than 58,000 men and women who made the ultimate sacrifice in Vietnam.

Visitors experience The Wall rising... above them as they walk towards the apex, a key feature of the design of The Wall in Washington D.C. Like the original memorial, The Wall That Heals is erected in a chevron-shape and visitors can do a name rubbing of individual service member's names. Modern LED lighting provides readability of The Wall day and night.
