Community Needs Assessment

Maine Council on Aging will be hosting an event in partnership with Maine Shared Community Health Needs Assessment (MSCHNA) To gather your input.

We want to hear your thoughts on the health of your community, and together with your neighbors, identify the top health concerns, populations most at risk, as well as resources and gaps to address those concerns.

About the Maine Shared CHNA

Vision

The Maine Shared Community Health Needs Assessment helps turn data into action so that Maine will become the healthiest state in the U.S.

Mission

The Maine Shared Community Health Needs Assessment is a dynamic public private partnership that:

- Creates shared community health needs assessment reports;
- Engages and activates communities; and
- Supports data-driven health improvements for Maine people.

Learn more at www.mainechna.org.

The Maine Shared CHNA is made possible through the support and collaboration of our signatory partners including Central Maine Healthcare, Maine Center for Disease Control and Prevention, MaineGeneral Health, Maine Health, and the Northern Light Health and countless community partners.
