

CLIENT SPOTLIGHT

Cigna

ABOUT CIGNA

Cigna is a global health services company dedicated to helping the people they serve improve their health, well-being, and sense of security. Cigna provides health insurance and covers a broad range of integrated health care and related plans and services, in addition to proven health and well-being programs that are targeted to the needs of their members (customers). What makes them really unique is that they take a holistic approach to healthcare, understanding that while physical health is an area that's always important, they also understand and promote the importance of mental health, substance abuse, and behavioral health benefits and programs.

Cigna has worked hard to create a truly collaborative and supportive team culture. Every employee is placed within a team; they hire in teams, train in teams, and help people connect and socialize with their teams through organized networking and team-building events. They also believe in investing in their teams and people, which is evident in their generous tuition reimbursement program and their robust and comprehensive training programs. And they don't just stop there; every new hire is assigned a senior mentor to help navigate their career and get acclimated to their new environment.
