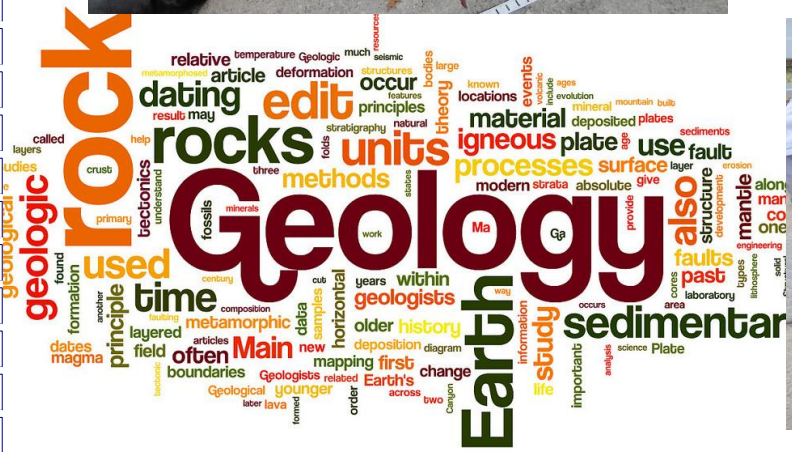
Ms. Renee Brohamer's and Ms. Eilish Murphy's Class


On Monday December 17, Ms. Renee Brohamer's and Ms. Eilish Murphy's class enjoyed a morning of working with Ms. Sherilyn Farris' sixth graders on Earth Science activities. They explored land and water forms together and created booklets for reference. They excavated soil to find fossils and then planted flower seeds in soil to take home with them to watch them grow. Go STEM!
