

Ms. Martha Dolan and Ms. Jasmin Laska's

January 2019 News

Welcome back to school! We are all excited about the adventures that lay ahead of us. During this month, we will explore the Solar System. Learn something special about each planet in our Solar System, especially Earth, our planet! The students will make their own Solar System during their art activities and label them. We will read the book, *There's No Place Like Space* by: Dr. Seuss. We will also learn about astronauts and the special thing they must do when traveling into space.

We will locate Antarctica on the globe and explore animals of Antarctica. We will focus mostly on the Penguins and how they survive and raise their young in Antarctica.

The artist of the month is Vincent Van Gogh - 1853 - 1890 / Post-Impressionist. We will look at some of his famous paintings.

Don't forget every Thursday is Show and Tell. Your child may bring one item that goes along with the letter sound or unit study we are working on. We encourage them to bring something that will fit in their cubby.

Looking forward to learning many new things in January!
