FOULSTON
ATTORNEYS AT LAW

Kansas Employment Law Institute

Foulston's Kansas Employment Law Institute is a comprehensive, full-day seminar covering the latest employment law developments, human resources best practices, and strategies to remain compliant as well as an employer of choice. Sessions are presented by experienced Foulston employment lawyers and will include topics such as new FLSA regulations, sweeping changes at the NLRB, and recent court decisions.

We're also excited to bring you keynote speakers Jarrett Green and Rebecca Green. Their presentation focuses on how employers and HR pros can foster peak performance through mindfulness and stress management. They have delivered their workshops and presentations, designed to help employees at all levels improve their emotional well-being, cognitive skills, and productivity, to corporations such as Tesla Motors, US Bank, NBC-Universal, and Allstate Insurance Company.

“ *This is the most valuable and worthwhile event that I attend each year.* ”

“Like the variety of topics, the updates on employment law, the heads up on things to watch out for in the future, the handouts as a resource when I get back to the office.”

“Covers pressing and relevant issues in HR and employment and reaches all levels of HR experience.”

I laughed. I cried. I learned. This is highly organized. I enjoy the structure and the content. ”
