

Dr. Sunil Gregory:

Senior Director and Advisory Leader
Cognizant Technology Solutions

Dr. Sunil Gregory is a technology and legal leader whose work sits where innovation meets accountability. Over more than two decades in global leadership roles, he has overseen large-scale portfolios and led strategic transformation. He is the author of *Who Owns, Who Answers, Who Rules: The Global Architecture of AI Regulation (Springer, 2026)* and the *AI Governance Handbook: A Practical Guide for Enterprise AI Adoption (Springer Nature, 2025).* He holds a Ph.D. in Law from NALSAR University of Law, with a doctoral thesis on protecting software for today and the future. He also holds a Postgraduate Diploma in Patent Law, an MBA from IIT Delhi and a Bacher of Technology in Electronics and Communication Engineering. His work advances a human-centric model of AI governance that aligns innovation with accountability and the public good.
