International Business | Private Equity | Venture Capital | Corporate Finance | M&A | Strategy | Market Entry | Cost Cutting | Management

As an entrepreneur, senior executive and public company director, Albert has spent his career working for and with investors, boards, and management teams to build global businesses. He has created value across the investment process from deal origination and execution to management, oversight, and exit. As his career has progressed, he has enjoyed teaching US and international students the lessons he has learned.

Albert has served as an Independent Director, Audit Committee Chairman and Financial Expert for four NASDAQ listed companies. In his public board capacity, he has also served as the Chairman of the Special Committee for the sale of China Fire & Security Group, Inc. (CFSG) to Bain Capital and, most recently, has been actively engaged in Breeze Holdings Acquisition Corporation's (BREZ) announced \$1.2 billion dollar merger scheduled to close in the 2nd quarter of 2024.

In addition to his board experience, Albert is also the Managing Director of AmPac Strategic Capital LLC, a consulting and investment holding company. In this role, he established relationships and strategic alliances with leading corporations and financial institutions in the US and China. In China, alliances were formed with firms such as the State Development and Investment Corporation (SDIC), China International Trust and Investment Company (CITIC), Beijing State Asset Management Company (BSAM), trust companies and numerous other leading institutions (State and Provincial).

Before founding AmPac, Albert was responsible for the day-to-day operations of the Cross-Border Transactions practice of PricewaterhouseCoopers ("PwC") Financial Advisory Services. The Chairman's initiative assisted PwC's largest clients to complete several billion dollars in cross-border transactions.

Albert was also instrumental in building two Asian based financial service firms. The first, Riddell*Tseng, built a 90% market share assisting foreign insurance companies in devising and implementing their market entry strategies in Greater China. The second, Pearl Delta Capital Corp., assisted leading Asian and foreign venture capital funds to complete fund formations and cross-border transactions.

Albert ran corporate finance at CEF Taiwan Limited, the Taiwan branch of a large regional merchant bank that was a joint venture between Canadian Imperial Bank and Cheung Kong (a leading Hong Kong conglomerate). He began his investment banking career at Shearson Lehman in New York.
