

Richmond Rangers

Parks Explored in 2016

- Pt. Pinole Regional Park
- Tilden Regional Park
- Crab Cove Marine Reserve
- Lake Chabot Regional Park
- Coyote Hills Regional Park
- Wildcat Canyon Regional Park

Navigation

Point Pinole Regional Park

Rangers bonded through team building games and scavenger hunts and learned orienteering skills using compasses and maps.

Wild Animals

Tilden Regional Park

Rangers learned to identify animal tracks, set up motion-sensor cameras, and took a three-mile hike. The camera footage captured was shown at the following Family Night; a bobcat, coyote, puma, raccoon and a deer all made the cut!

Animals on the Farm and in the Wild

Tilden Regional Park

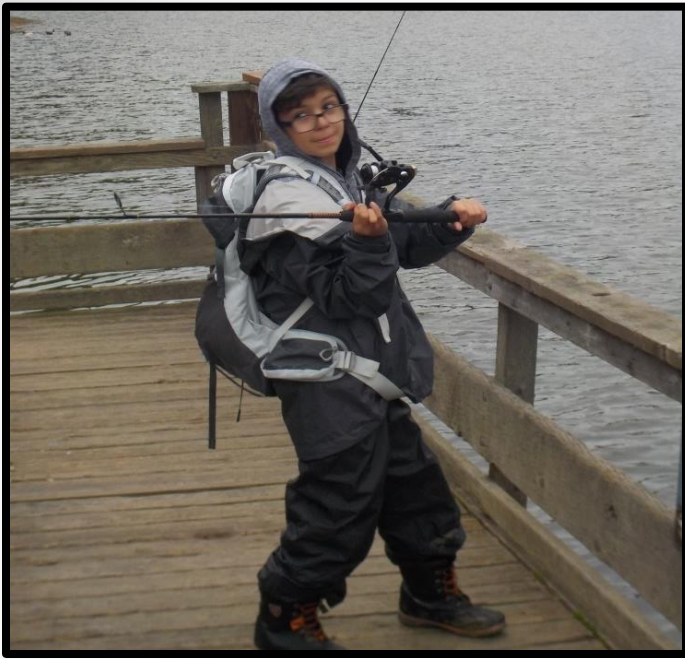

The Rangers learned about and interacted with farm animals at the Little Farm: rabbits, chickens, cows, pigs, and goats, oh my! Afterwards they slowed down with a calming activity in the peace of the garden.

Fishing Fun!

Crab Cove Marine Reserve & Lake Chabot Regional Park

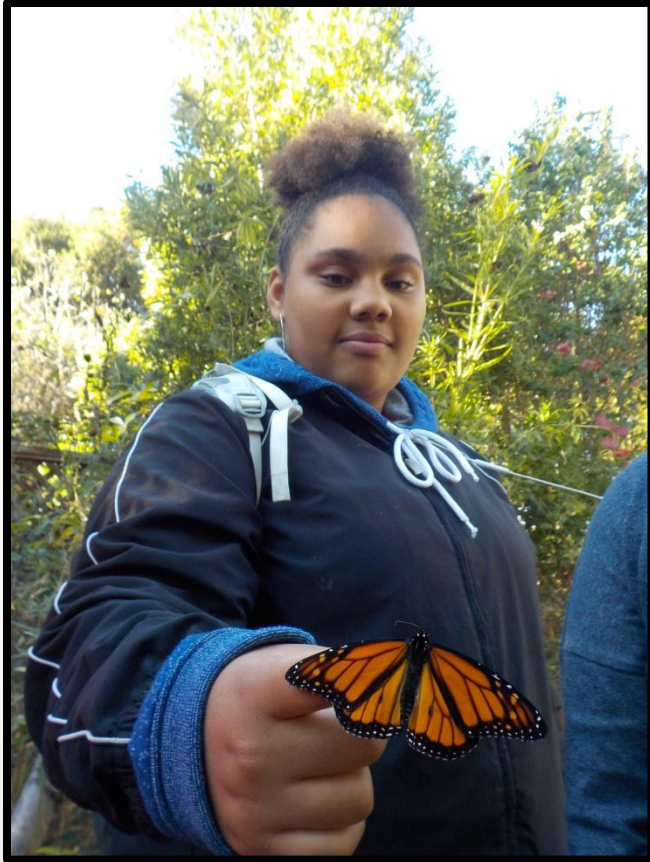

Rangers explored and fished while learning about the difference between salt and fresh water fish and marine life.

Native Living History

Coyote Hills Regional Park

Rangers learned native history from an elder, and explored a saltwater marsh.

Family Nights

“My favorite part of today was learning the background of all of the staff and how much experience and education each one have. I know my son will enjoy and learn many things.”

Family Nights allow YES and Parks staff to communicate with parents and guardians about upcoming events, while Rangers share their learning

- as everyone enjoys a delicious meal.

Meet the Rangers

Seth

YES Camper since 2013
