

SEPTEMBER IS

Happy Cat Month!

FFFB celebrates the special bond between you and your cat.

Tips from the American Animal Hospital Association (AAHA)

Safe & Secure Home

Keep your cat indoors to protect them from cars, predators, disease, and other dangers.

Preventive Care

Veterinary care can be expensive, and not every cat has a regular vet. If a wellness visit is possible for you, it can help catch problems early and support your cat's health.

Play Every Day

Interactive play keeps your cat mentally and physically active. Aim for short sessions daily.

Nutrition Matters

The cat food we provide through FFFB helps keep your cat fed and cared for. Offer fresh water every day and follow the feeding directions that work for your cat.

Enrich Their Environment

Provide scratching posts, cozy spots, window views, and plenty of toys.

Love & Attention

Your cat thrives on kindness, gentle handling, and quality time with you.

Know Someone Who May Qualify?

Call 207-941-2865 to apply. FFFB is available to older adults aged 60+ who meet income guidelines.
