

## **ExploreMore! Parent Lecture Series**

**Join us for our Parent Lecture Series featuring experts in the field of giftedness. All of our events are open and free to the public. We ask that you do register for many of our popular events as they will fill.**

### **March 6, 2019**

Dr. Christopher Bolling, MD will be speaking on Anxiety and Depression in Gifted Students. Dr. Bolling is a prominent pediatrician in Northern Kentucky and Cincinnati and is consistently rated as one of the top pediatricians in the area. Register for this event at [www.exploremoregifted.org](http://www.exploremoregifted.org)

### **March 9, 2019**

Dr. Edward Amend will be discussing the common misdiagnoses of gifted individuals and those diagnoses that are often missed in gifted individuals. Registration for this event at [www.exploremoregifted.org](http://www.exploremoregifted.org).

### **March 16, 2019**

Amy Darpel will be speaking on the topic of acceleration and other educational opportunities for gifted students. She will be discussing all types of acceleration from curriculum compacting to grade skipping and what form would be best suited for your child.

### **March 23, 2019**

Parent Room Open Discussion regarding advocating for your gifted child. Parents will have the opportunity to discuss what is working and what is not working for their child.
