

Fairmount Center for the Arts - ONSITE PROGRAM PROCEDURES

Fairmount has been working hard to ensure the safety of the Fairmount community. Please review the policies below.

Procedures for Attending Programs at Fairmount Center for the Arts (FCA)

By registering for a program at Fairmount Center for the Arts (either for myself or as parent/guardian of a child), I agree to the following:

Protection of Self and Others from Possible Exposure

Before coming to FCA I will perform a health assessment on myself (or on my child) consisting of the following symptoms:

- Temperature is less than 100.4 degrees
- Free of a persistent cough
- Free from any of these symptoms: muscle pain and/or chills; shortness of breath/difficulty breathing; a recent loss of smell and/or taste; or unusual digestive issues (i.e. diarrhea, nausea, or vomiting).

If I am experiencing any of the above symptoms, I will not go to FCA or send my child to FCA.

Upon arrival at FCA, your/your child's temperature will be taken. If a temperature is greater than 100.4 degrees, you or your child will not be admitted into the building.

If I am confirmed positive with COVID -19, I will inform the Executive Director and I will begin quarantining for 14 days.

When I am inside FCA, I will wear a mask and/or face shield (unless I am in a room by myself).

Hand Washing

Upon entering FCA, I will use hand sanitizer or wash my hands with soap and water for 20 seconds.

I will wash my hands with soap and water for 20 seconds after toileting

Social Distancing

I will not arrive at FCA more than ten minutes prior to the start of my class.

I will not linger in the building to socialize after class.

I will respect the markings on the floors and in program areas that denote appropriate social distancing (6 ft.).

As a parent or guardian, I will limit my time in the building to include only drop off and pick up. For children under 10 years of age*, staff will help with entrance, delivery to class, and exit at the door. (*Exception: a class designed for adult and child to attend together).

The protocols are subject to change depending on the current guidelines of the State of Ohio.
