

Infant Massage

WI-AIMH is excited to offer a two-part virtual training series on Infant Massage!

The first training will provide an overview of Infant Massage—theory, use and benefits. The second training will be a live demonstration of Infant Massage and the various techniques used to support and complete the process. Information about Infant Massage classes for caregivers, and how to become a certified instructor will also be shared. Both sessions will have time for discussion and Q&A.

We hope you can join us!
