

RECORDING & TRACKING STUDENT TEMPERATURES WILL BE CRITICAL WHEN STUDENTS RETURN TO SCHOOL

Parents want to know that their kids will be safe when they return to School. We've been working with the designers of a tool that allows Parents & Teachers to perform student health screenings quickly and securely.

The tool is called myTempTracker. Identifying and tracking student temperatures is one of the ways our school can keep your kids safe. 100% HIPAA Compliant.

SETTING YOUR PASSWORD FOR MYTEMPTRACKER:

(You will only need to this step the first time you enter the myTempTracker.)

- 1. Go to your Zion App home page
 - 2. Click Parent Login
 - 3. Enter Only the Email - Click Forgot Password. *This allows you to enter a password of your choice.*
 - 4. Password Reset Request will go to the email entered. Click reset Password
 - 5. Reset Password - Enter New Password and Confirm Password click reset.
- Password must be at least 8 Characters and must contain 1 capital letter, 1 number and 1 symbol.*

Using the myTempTracker will make it easy for the staff to quickly check your students into the school with no contact.

When arriving at the gate have the myTempTracker open on your cell phone. A Zion staff will take your child's temperature and you

will enter that temperature on the tracker and answer the 3 questions, click on submit and show the staff member the green circle with the checkmark in the middle to show student is cleared to go to school.

GET STARTED:

1. Go to your Zion App home page
 2. Click Parent Login
 3. Enter Only the Email - Click Submit
 4. Enter Password - Click Submit
 5. Select your Student - Click Submit
 6. Enter the Temperature the Zion staff has read from their thermometer. Answer all 3 questions click submit
 7. Show Zion Staff the cleared to go to school green circle with check mark.
- * note if you have more than one child attending Zion click on the Back to Home and that will take you back to select your student.
