

Two of our premier clients in Attleboro have an IMMEDIATE need for a **Quality Assurance Inspector**. This position will be responsible for performing inspection of incoming, in-process and finished goods. You will also be responsible for ensuring that equipment is properly maintained.

Hours: Monday thru Friday / 1st Shift

Pay Rate: \$18.00-\$22.00 per hour depending upon experience

Duties and Responsibilities:

- Perform QA inspections on incoming, in-process and finished good products according to QA controlled procedures
- Perform first article inspection and spot checks for manufacturing of machined components
- Complete and maintain QA inspection records
- Perform verification on product development
- Perform product testing as required
- Maintain/process calibration program for measuring and test equipment
- Maintain/process files for non-confirming material
- Maintain inventory locations assigned to QA
- Maintain QA areas to ensure they are clean and orderly
- Work as a team with management, engineering, and manufacturing

Requirements:

- Two to three years prior experience in a QA environment
- Experience with testing and measuring equipment including verniers, micrometers and overhead comparators
