

# Fire Safety

## Be Smart

Here are some important **fire safety rules**.

- **Never play** with matches or lighters.
- **Never handle** gasoline or other liquids that burn.
- **Always be careful** around a stove, heater or open fire.
- **Don't walk away** and leave food cooking on the stove.
- **If something catches on fire**, call 911 and/or get help.
- **Don't hang up** until the 911 operator tells you to. **Listen for instructions.**

## Be Prepared

- \* **Make an escape plan.** Work with your family to plan how to get out of your home if there is a fire.
- \* **Plan two ways out of every room.** The first way out should be a door.
- \* **Choose a meeting place.** Pick a safe and easy-to-remember spot outside your home where you will meet your family after you get out.
- \* **Practice!** Every escape path needs to be planned and practiced with adults.
- \* **Test smoke alarms.** Remember to test smoke alarms monthly and to put in new batteries twice a year when the clocks change.

## Be Safe

- ⇒ **Get out fast!** When you hear the loud beep of the smoke alarm, get out of the house. Never hide or take time to grab your belongings or pets.
- ⇒ **Follow your escape plan.** After all, you've been practicing!
- ⇒ **Feel a door before you open it.** If it is hot, there may be fire on the other side. Try to get out another way.
- ⇒ **Stay low to the floor.** Since smoke rises, the safest air for breathing is down low.
- ⇒ **Call 911, Emergency Services.** Be sure to do this after you get out of the house.  
 Remember: Only call 911 if there is a real emergency.
- ⇒ **Stay out!** Once you're out, stay out.  
 Don't go back for anything!

## Put the steps into the correct order!
