

Voting

Choose two of the four cartoons beneath and discuss what they have in common and how they are different. Then reflect on the following questions for 7 minutes:

- 1) You will soon be voting in the November 2020 election. In what ways are you (not) eager to participate in the next elections? Explain.
- 2) Pick one of the following domains and explain what actions you would expect politicians to take to improve the situation today: immigration, education, health care, economy, finances.
- 3) In what ways do you believe politicians in the United States and your home country to be doing/not doing a good job? Explain.

Don't forget to vote!

It's important to pick the guy you'll blame when nothing changes.
