

The Sharon Substance Prevention and Resource Coalition proudly presents...

Under Construction: Teen/Tween Brain Development & Substance Use

Wed., Dec. 7

Sharon High School Auditorium

7 PM

Come hear Dr. Ruth Potee speak about the relationship between teen brain development, teenage risk taking, and substance use!

Dr. Ruth Potee is board-Certified in Family Medicine and Addiction Medicine. She practices with the Valley Medical Group in Greenfield, co-chairs the Opioid Task Force of Franklin County, and serves as medical director for the Franklin County House of Corrections. Her work on teen brain development and opioid addiction has earned national attention.

Who should attend?

Community members who care about preventing drug use in our community!

- Parents/caregivers
- Teachers / school counselors
- Clergy
- Grandparents
- Treatment providers
- Police/fire
- Teenagers
- Social service providers
- Concerned citizens

Attendees will gain insight into how the teen brain develops and functions, and how to apply this information in daily interactions with teens.

This Event is Free and Open to the Public!

Event sponsors and supporters: SSPARC (Sharon Substance Prevention & Resource Coalition), Sharon High School PTSO, the Sharon Education Foundation, the Sharon Public Schools, and Everwood Day Camp.
