

AMERICAN SOYBEAN ASSOCIATION/BASF SCHOLARSHIP

Dec. 31 deadline to apply

Do you know an outstanding high school senior who is interested in pursuing a career in agriculture? Strong agriculture leaders are vital to the sustainability and growth of the soybean industry, and the American Soybean Association, in partnership with BASF, wants to provide a student interested in agriculture with a college scholarship to begin their degree. The Soy Scholarship is a \$7,000, one-time award presented to a high school senior who plans to pursue agriculture as an area of study at any accredited college or university in the 2026-27 academic year. The scholarship is managed by ASA and made possible through a grant by BASF Corporation. High school seniors may apply online Oct. 7 – Dec. 31, 2025. [Click here to learn more information about the program.](#) The scholarship is awarded in \$3,500 increments (one per semester) for the 2026-27 school year. The student must be a child or grandchild of a current state soybean association/ASA member, maintain successful academic progress, and remain in good standing with the college or university to receive the full amount of the scholarship. A committee of soybean grower leaders will select the ASA BASF scholarship recipient. The award winner will be announced this winter. For more information, please visit www.soygrowers.com. ASA and BASF have recognized and rewarded students for their hard work and interest in agriculture through the Soy Scholarship since 2008.
