

UGA WARNELL SCHOOL OF FORESTRY BOBWHITE QUAIL SURVEY

The Martin GAME Lab at the Warnell School of Forestry and Natural Resources at UGA is looking for private landowners in Georgia to take part in a brief survey about their opinions on bobwhite quail management for a study titled "Bobwhite Restoration, Incentives, and Research". The purpose of the study is to better understand landowners' opinions on bobwhite quail management and cost-share programs landowners would enroll in to manage their properties for bobwhite quail. Visit https://uGeorgia.ca1.qualtrics.com/.../SV_3aRgLcUioS8uy0u to take the study. Thank you in advance for helping with in this study.
