

HELP KEEP OUR WATERWAYS CLEAN

Without a doubt, the beaches and bays are Sea Isle's greatest natural resources. With countless people enjoying our shoreline and waterways each day during the summer months – and throughout the year – it's very important that we all make an effort to keep our town, shoreline and bays free of trash and debris. Here are a few ways everyone can help Sea Isle remain "Clean and Green" during the summer, fall, winter and spring...

- When you're on the beach, walking down the street or sitting on your front porch, don't let the wind carry food containers and other items out of your possession and into Mother Nature's realm. Something as small as a candy wrapper can make a negative impact on the local eco-system.
- Remember that Sea Isle's storm drains lead directly to our waterways – so if litter hits the sidewalk or gutter it can easily make its way to the bay and ocean.
- If you smoke, please don't use the sand as your ashtray. Each year during the Environmental Commission's Beach Clean-Ups, cigarette butts are listed as one of the most common trash items collected from our beaches and dunes.
- Be sure to put all litter and recycling in their proper containers. And, as always, remember to "Reduce, Reuse and Recycle."
