

Poulsbo 2044

COMPREHENSIVE PLAN UPDATE

The Comprehensive Plan ("Plan") is central to land use and infrastructure planning under the Growth Management Act (GMA). The Plan expresses a vision for the City in its goals and policies and serves as a guide for future development. It identifies those characteristics the community desires to retain, reinforce, and achieve as the City grows; it establishes the policies to realize the goals; and it identifies the resources necessary to provide services to the residents and businesses now and in the future.

GMA requires that cities and counties update their Comprehensive Plans on a periodic schedule. The next update of the City's Comprehensive Plan is due December of 2024. The 2024 Update will plan for the next 20 years of population and employment growth through the year 2044.

Poulsbo is required to plan for 5,646 new residents, 4,000 new jobs, and 1,197 new housing units.
