## DAMAGED HAIR?

Our Bond Building Treatment reduces the oxidative stress inside the hair by protecting the strong bonds and restoring the broken bonds, forming a new bridge between the keratin proteins. This will strengthen the hair and help stop any further damage to the internal structure of the hair.

## GOT BUILD UP?

Our Clarifying Treatment is the process of stripping away product buildup with either purifying shampoos purchased in-store or through a variety of DIY home remedies. Hard water and well water patients benefit greatly from this service. The result is hair that is less weighed down and easier to style, and healthy hair follicles on the scalp mean an increase in hair growth and thickness.

## THIRSTY HAIR?

Our Hydration Treatment will provide smooth, strong, shiny hair, a deep conditioning treatment can be well worth the extra time and money. While it is not necessary at every trip to the salon, you should consider a deep conditioning treatment every other month in order to put your best hair forward.

## COLOR FADAGE?

Our Color Lock Treatment seals the cuticles and locks color pigments into the hair immediately after the hair-coloring process. Color Lock is a density treatment exclusively for in-salon use. It neutralizes alkaline and peroxide residues without weighing down the hair.

## EXPERIENCING BRASS?

Our Bust your Brass Treatment intense repair mask brings blondes back to life. This luxurious, ultra hydrating reparative toning mask is formulated with bond sure technology common Viga proteins and plant butters to repair plus strength and damaged hair while toning brassy hues.

Our salon is dedicated to the integrity of your hair. Take advantage of one of our erin salon hair treatments to keep your hair in the best shape possible. Each treatment is between 5 and 15 minutes as an add-on to your scheduled service.
