

Feeding Our Students

A Look at Nutrition Services in the Needham Public Schools

Thursday, March 24 – 7pm to 8pm on Zoom

The **League of Women Voters of Needham** and **Meatless Monday Needham** are collaborating on the forum "**Feeding Our Students - A Look at Nutrition Services in the Needham Public Schools.**"

School nutrition services - what we may casually refer to as school lunches, have changed significantly in recent years. What meals are now provided? How are they funded? How are nutritional needs and federal requirements balanced with students' expectations? How has the pandemic affected services? And have improvements been made in reducing food waste and increasing the recycling of mealtime materials?

Our speakers will be Colin Boisvert, Director, and Jen Tuttelman, Assistant Director, Nutrition Services, Needham Public Schools
