Care Partner Consultations

Caring for someone living with dementia can feel overwhelming - you don't have to navigate it alone. Dementia Care Partner Consultations offer individual support, guidance, and resources tailored to your unique situation.

What Consultations Can Help With: Understanding dementia and related behaviors, navigating resources and services, managing stress and care partner well-being, care planning and problem-solving, and emotional support for care partners.

Care Partner Consultations are available Monday through Friday with Stephanie Knoch, MSW, LCSW, CDCP, in-person, virtual, or over the phone. Consultations in-person every Thursday at the Needham Senior Center from 1:00 PM to 4:00 PM. To schedule or learn more: (781) 444-2415 or sknoch@needhamcouncil.org
