

This year the 2017 CASAS Summer Institute had more than 1,000 attendees from 30 states and territories. We are particularly pleased with the participation from local, state, and national presenters in providing nearly 100 workshops, training sessions, and panel discussions that focused on key issues in adult education and workforce training. Our evaluations reported that the Institute was "exceptional and surpassed expectations."

A multitude of online trainings will be available to WIOA II agencies this summer, including

- Program Evaluation Reports
- The Data Integrity Report: Are You on Target?
- Test Security Guidelines
- CASAS from the Inside Out
- CASAS Assessment Policy Guidelines
- CASAS Resources
- CA Assessment Policy Guidelines

Register at [www.casas.org/trainings and meetings](http://www.casas.org/trainings_and_meetings)

We are finalizing the fall CA Regional Trainings at 12 sites throughout the state. These will begin in mid-August. Agencies will receive email information on where and when these trainings will be held, including registration information. The 2-day trainings will include CA Accountability guidelines, TOPSpro Enterprise Basics (and hands-on computer training) and Implementation Training (certifies staff to administer CASAS assessments.)

For AEBG programs, CASAS AEBG Technical Support trainings are also scheduled and hosted by the AEBG Technical Assistance Project (TAP). Go to <http://aebg.cccco.edu/Events/AEBG-Webinars> to register. There will also be regional training this fall similar to the 12-site schedule implemented last spring. The regional training schedule is tentatively beginning mid-August.

Remember, if your agency needs any assistance, please go to our website at www.casas.org or call us at 1-800-255-1036.
