### **PATH TO EQUITY IN AN ADULT ED CONTEXT: A LEADERS ROLE**

*Cherise Moore, Senior Researcher, California Adult Literacy Professional Development Project*

With managing daily operational and compliance tasks, it's easy to forget the greater purpose of our work. The opportunities we provide adults has the potential to level the playing field for those most in need. This is only true to the extent that leaders are ensuring that students have equitable access to education that can transform their lives. In this session, participants will reflect the role of leaders for equity and learn strategies for equity.
