

Student Success Story

Jennifer Logan
Kings Canyon Adult School

At the age of 36, Jennifer found it to be the perfect time in her life to chase her dreams. She was motivated to get her high school diploma because she wanted to pursue a career in teaching. At 17, she had dropped out of high school when she found herself pregnant with her first child. Since then, she married and continued to have three more children. She worked and took care of her family.

However, she found herself a stay-at-home mom and didn't feel accomplished. She thought that she could do more and be more for her kids. She started volunteering at her son's school and really gravitated to helping out in the classroom. She felt like a career in teaching would be a great opportunity to provide for her family as well as have the same schedule as her kids. Therefore, she started the high school diploma program at Kings Canyon Adult School in August 2022, and realized she didn't need too many credits to finish.

In January 2023, with the motivation and assistance from the adult school staff, she enrolled at Reedley College and graduated in May with her Associates Degree in Liberal Arts. In addition, she will be attending Fresno Pacific University to achieve her Bachelor Degree in Liberal Arts with a minor in special education.

Jennifer states, "My motto is, 'It's never too late.' Success can seem distant or unachievable but it is just an arm length away, the arm length that is needed to open the door into Kings Canyon Adult School."
