

# COMPTIA A+ CERTIFICATION

(CORE 1 EXAM 220-1001 & CORE 2 EXAM 220-1002)

## Earn a CompTIA A+ certification and skyrocket your IT career.

Understand how computer systems architecture can be implemented and properly maintained to support the needs of an organization. Become proficient in how operating systems are installed, configured, and used in various business settings. At the end of each course, you will be ready to sit for the exam and take the next step to become CompTIA A+ certified.

### CompTIA A+ 1 (Core 1 Exam 220-1001)

- Demonstrate an understanding of computer systems architecture including Central Processing Unit (CPU), memory, computer Input and Output (I/O), various operating systems, and file management
- Create and configure storage solutions
- Demonstrate an understanding of network security infrastructure
- Demonstrate an understanding of system monitoring and troubleshooting

### CompTIA A+ 2 (Core 2 Exam 220-1002)

- Install and configure PC operating systems
- Troubleshoot common computer and operating system issues
- Identify common security threats to computer resources
- Indicate fundamental functionalities and operations of mobile devices

**\$2,400 VALUE FOR TUITION, MATERIALS AND EXAM VOUCHERS**

#### ONLINE AND SELF-PACED

Approximately 45 hours per course  
(up to 6 months to complete coursework)

#### COST - \$0

These courses are funded by a grant through the Fresno K-16 Collaborative
