

# MAINTENANCE AND LIGHT REPAIR PROGRAM

**Description:** The MLR program is designed to train students in technical knowledge of bumper-to-bumper maintenance and light repairs in the critical areas of engine systems, automatic transmission/transaxle, manual drive train and axles, suspension and steering, brakes, electrical, and heating and air conditioning. Students will perform actual service and repair on vehicles in state-of-the-art labs, using tools, and technologies that will ensure they are workforce ready, at our new Advance Transportation Center (ATC) located in West Fresno, and qualified for the G1 Automotive Service Excellence (ASE) Education Foundation industry certification.

**Dates:** January 12, 2025 - December 13, 2025

**Time:** 1:00 p.m.-4:20 p.m.

**Days:** Monday - Friday

**Location:** West Fresno Center  
600 E. Church Avenue  
Fresno, CA 93706
