

Tom Tiffany's Parents & Teachers Bill of Rights

A Common-Sense Plan to Protect Parents, Empower Teachers, and Put Kids First

Every child deserves a safe classroom, every teacher deserves the authority to maintain order, and every parent deserves to know what is happening in their child's school.

1. Parents Bill of Rights

- a. **Establish Honest A-F School Report Cards:** Implement transparent A-F report cards that give parents a clear understanding of how their children's schools are performing.
- b. **Require Curriculum Transparency:** Give parents the ability to review instructional materials used in their child's classroom.
- c. **Protect Parental Rights:** Ensure schools notify parents and obtain their consent before changing a student's name or pronouns at school or providing medical services, allowing parents to remain in control of decisions affecting their children.
- d. **Increase School Safety Transparency:** Require schools to notify parents about violence, threats, and crimes occurring on school grounds.
- e. **Require Academic Progress Updates:** Require schools to provide parents with individualized information about their child's academic proficiency and classroom behavior at least twice a year.

2. Teachers Bill of Rights

- a. **Restore Classroom Authority:** Empower teachers to remove violent or disruptive students who threaten classroom safety or interfere with instruction.
- b. **Require Behavior Intervention Plans:** Require appropriate behavior intervention plans before students removed for violent incidents or persistent disruptions can return to the classroom.
- c. **Protect Teachers from Retaliation:** Prohibit retaliation against teachers for enforcing classroom rules, reporting unsafe conditions, requesting assistance, or taking appropriate action to protect students.
- d. **Hold School Districts Accountable:** Establish school safety and parental notification requirements, with procedures for addressing violations and ensuring compliance.

3. Common Sense for Kids

- a. **Protect Girls' Sports and Private Spaces:** Prohibit biological males from participating in girls' sports or accessing girls' locker rooms and bathrooms in schools.
- b. **Prohibit Taxpayer-Funded Menstrual Products in Boys' Bathrooms:** David Crowley [cosponsored](#) legislation that would have required taxpayers to fund and stock tampons in boys' public school bathrooms.
- c. **Prohibit Gender Transition Procedures for Minors:** Prohibit gender transition procedures for individuals under 18.
