

TURN IT AROUND

Turn It Around Alumni:
Terrell McQueeney
Where are they now?
Highschool Graduate

My involvement, in Turn It Around, started nearly 6 years ago. My favorite part of being a member was contributing to the community events we held and experiencing new things. Turn It Around has helped me gain people skills more than anything. Through the program, I've learned how to communicate and function in a more professional setting. The program also gave me a lot of insight into the consequences of drug use and the negative effects that it could have. This knowledge made it easier for me to share with others why they shouldn't do drugs either.

I can't really put into words how much TIA has helped me. And for anyone new to TIA or upcoming in the program, I would say you definitely can look at it as a second home. I've met and have a love for so many great people in the program still. If there's ever anything you need help with or support, this is a great group to get involved with and they are all willing to help.

Some important advice from me that I'd like to pass on is: #1 Find God and create a relationship with Him. Any problems or doubts you have, give it all to Him to worry about and TRUST that everything will be fine due to Him! Knowing that will free you from any anxiety and you'll be able to put your full focus on everything you want to accomplish without fear. #2 Work hard, trust the process, and wait your turn! Everyone has a purpose in life & you'll soon see the reason why you were put here as great as you are! Never lose that trust!
