

Youth of the Month

November

Hello, my name is Sierra and I joined Turn It Around because it's an opportunity to help other people and that is a passion of mine. Although, I tend to be reserved and quiet, once you get to know me, you can see my heart for others and how important it is for me to help people in need. I have done many events with Turn It Around in the Charlestown community and have already made such a difference by taking 75 lbs. of unused medication off the street during our Annual Take Back Day in 2018. This group is an awesome organization because they let us be ourselves, but also encourage us to be the best we can be.
