

# Youth of the Month

TURN IT  
AROUND

## December

My name is Geno Feeley and I am 14 years old. The school that I go to is the Edwards Middle School. I am from Charlestown.

One of the reasons that I joined *Turn It Around* is because I wanted to help other people that were in need. Another reason that I joined *Turn It Around* is because I wanted to make a difference in my community. This group has helped the community in a lot of ways and many people like the Mayor of Boston, Marty Walsh, is supportive of our group.

I want to help the community just like he does, and being a part of *Turn It Around* helps me do that. My goals are to become someone who affects the world or even my community in a positive way. I want to work with people like the homeless or even foster a child who needs a home. That is why I joined *Turn It Around*.
