TURN IT
AROUND

October

My name is Anthony and I am an official member of Turn It Around. I was told by one of my cousins, who is a member, about the program. About a week later of hearing about the group I was told to come to "Turn It Around" and though I was nervous I made a great first impression and committed to joining the group.

I want Charlestown to improve. This would include better schools and education. By that I mean, better tools and supplies and more things that would improve Charlestown's Schools like available mentors and tutors.

My goal is to help in making Charlestown better than before. I joined Turn It Around to make my goal happen and it seems that this group thinks the same. I am happy to part of a great big group called Turn It Around!
