

TURN IT AROUND

Turn It Around Alumni:
Mathewos Solomon
Where are they now?:
Student at Josiah Quincy
Upper School

My name is Mathewos and my involvement with Turn It Around was a valid experience. I knew most of the members from outside of Turn It Around from my community so I already felt somewhat comfortable when initially joining. The staff also made me feel at home as time went on.

Turn It Around over all opened my eyes up to different things in life and surprisingly, kept me out of trouble.

What I would say for the current members right now is to participate and get involved whenever you go to Turn It Around. Take the opportunity to build discipline and the outcome will be positive if you stay involved!
