A Few of Our Customers

And many more

DSCSA Dispenser Requirements

INTEROPERABILITY

Receive interoperable serialized data (EPCIS) for every purchase order.

ENHANCED SECURITY

Match product to data upon receiving. Notify sender of errors and discrepancies.

PRODUCT VERIFICATION

Verify the authenticity of suspect and illegitimate Rx products.
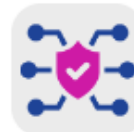

REPORTING

Provide proper product tracing documentation within 48 hours of a request.

FDA 3911

Promptly report any illegitimate drug products within 24 hours.
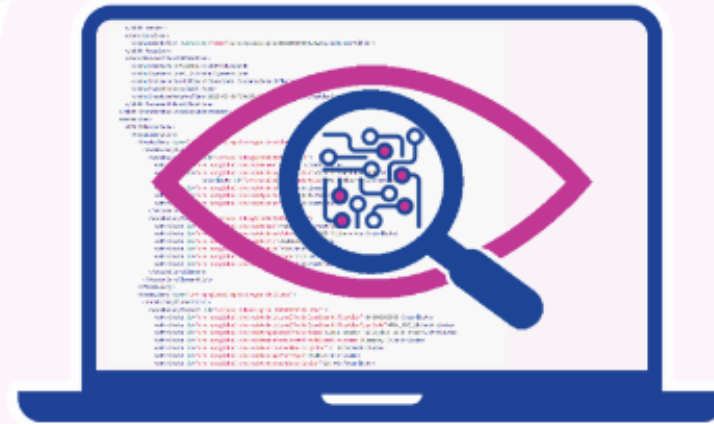

ATP- AUTHORIZED PARTNERS

Products must be purchased from authorized trading partners with verified licenses.

Simple, Yet Power Solutions

EPCIS

SERIALIZATION

OneScan is the industry's leading platform for serialization and EPCIS data interoperability. EPCIS is where serialized events are created, updated, and stored. OneScan enables serial generation, encoding, commissioning, reworking, and decommissioning.

INVESTIGATOR

EPCIS EXCEPTIONS MANAGEMENT

OneScan Investigator is the #1 cloud-based exceptions management solution for FDA's Enhanced Supply Chain Security requirement under the DSCSA. Investigator automatically identifies, alerts, and resolves EPCIS errors and discrepancies. There's no longer a need to hire additional staff to manage exceptions.

Simple, Yet Power Solutions

VRS
VERIFICATION ROUTER SERVICE

OneScan VRS allows users to quickly scan multiple products to perform self-check tasks such as product serial verification, recall, expired, suspect Rx, quarantine, decommission, and more. Verify+ syncs the serial status to EPCIS, ERP, EHR, and other business systems through a seamless API integration.
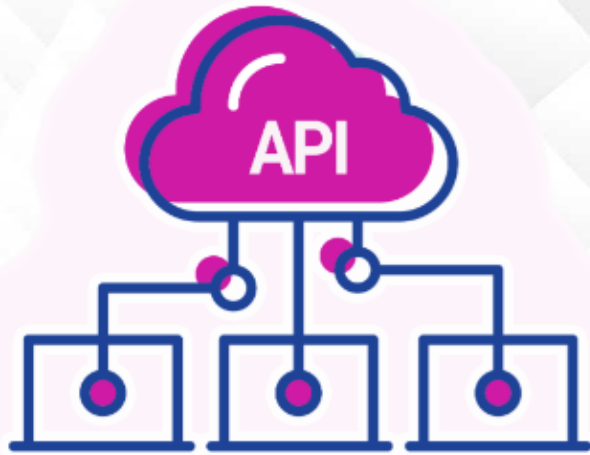

EXPIRY
EXPIRATION MANAGEMENT

Management of expiring drugs has never been easier or more accurate. OneScan Expiry is a proactive platform with simple reporting and automatic notifications of soon-to-expire products. Easy to use and fully automated to save you time and money.

Simple, Yet Power Solutions

CONNECTOR

API INTEGRATION

OneScan Connector offers 24+ standard RESTful APIs for easy integration to your business systems. Connector enables master data, serialized product data, and order data to flow seamlessly in real-time or in batches between connected systems. No more double data entry or human (data entry) errors!

ATP

AUTHORIZED TRADING PARTNERS

Access the OneScan ATP database of more than 31,000 authorized trading partners. Quickly find, add, verify, and manage your trading partners. DSCSA requires all of your trading partners to be authorized.
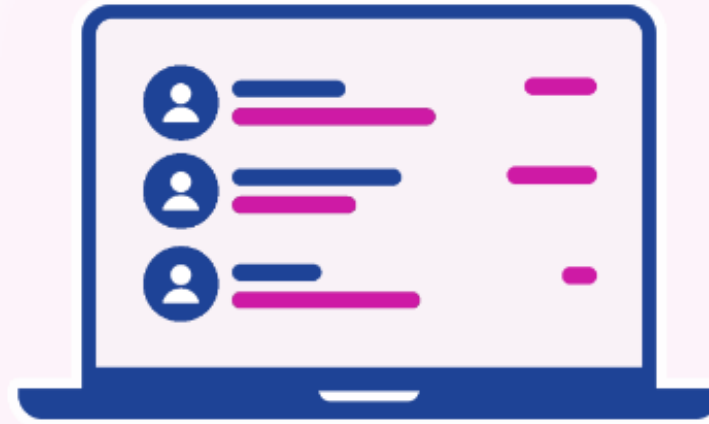

Simple, Yet Power Solutions

3911

FDA 3911 REPORTING

OneScan offers easy FDA 3911 reporting with auto-fill. With just the click of a button, OneScan will generate a complete 3911 form auto-populated with all of the correct data, ready to send, saving time and eliminating human errors from manual data entry.

OneScan

MULTI-LEVEL USERS

OneScan Pharmacy is built to scale and provides unmatched visibility into your orders and business operations from a national, regional, district, and local level. Users have clear visibility to all of the locations they manage.

Built for Dispensers

CLOUD-BASED & DEVICE AGNOSTIC

OneScan Pharmacy works seamlessly on all devices (desktop, tablet, and mobile). All data is encrypted and stored securely in the cloud.

DASHBOARD & REPORTING

All of your ASN & EPCIS orders neatly organized in an easy-to-use dashboard. Simple reporting at the click of a button.

Built for Dispensers

SCANNING

Quickly scan, match, and verify all products to save time and improve efficiency by reducing human error from manual data entry.

AUTOMATED RECALLS

A fully automated and expedited recall process that saves you time, and money while dramatically improving efficiency.

Penalties for Non-Compliance

Federal

- Failure to meet any of the requirements is listed under Prohibited Acts (21 USC 331) of the Food, Drug, and Cosmetic Act.

- First offense: Up to 1 year imprisonment and $1,000 fine

- First offense with intent to defraud or mislead: Up to 3 years imprisonment and $10,000 fine

- Subsequent offenses: Up to 3 years imprisonment and $10,000 fine

- Additional charges for mail fraud and misbranding can be filed

State & Local

- State Board of Pharmacy will impose their own sanctions that can include termination of license.

- Pharmaceutical manufacturers and wholesalers can file individual lawsuits against your organization.

Why LSPedia?

EPCIS Active for 2+ Years

LSPedia has been actively transmitting serialized EPCIS data with customers for 2+ years. Many competitors like Advasur and Inmar are still in early stages of development and have yet to be tested.

Trading Partner Connections

LSPedia customers include the big 3 and a vast majority of your suppliers. We already have the connections established. Your implementation will be a breeze!

Scalability

The OneScan platform is designed to help you grow and scale your business. Whether you're a single dispenser or have 5,000+ location, our software is ready to support your growing business.

Data

LSPedia is the largest data processor of serialized EPCIS data in the United States.

Reputation

We pride ourselves on our strong reputation as the most reliable, secure, and innovated DSCSA solution in the industry. And hats-off to our award-winning service and support teams!

Customer & Audit Support

We're always here for you. Our award-winning team is 100% based in the United States and our average customer response time is 20 minutes. It's no wonder why companies are switching to LSPedia left and right.
