

ASSP NW Pennsylvania Chapter announcement of **2nd OSHA Amputation Workshop**

Focused on the OSHA National Emphasis Program (NEP) on
Amputation in Manufacturing Industries

The Erie Area OSHA office is pleased to announce its 2nd Amputation Workshop, scheduled for Thursday, November 12, 2026. The event will begin at 9:00 AM and conclude at 11:30 AM. This 2.5-hour workshop will center on the National Emphasis Program (NEP) on Amputation in Manufacturing Industries, with a special emphasis on the recent update to CPL 03-00-027, which took effect on June 27, 2025.

During the workshop, OSHA representatives Brendan Claybaugh, Erie Area Director, and Mark Harmon, Compliance Assistance Specialist will provide an overview of hazard recognition, practical solutions for machine guarding, and safeguarding equipment and machinery within manufacturing settings. The session will also address the control of hazardous energy (Lockout/Tagout—LOTO), offering attendees actionable insights and guidance to improve workplace safety.

We need people to pre-register for the event and indicate if they plan to attend in-person or virtually.

This live presentation will be hosted at the Ellwood Corporate office, located at 700 Moravia Street, New Castle, PA 16101. Pull into the security and tell the guards you are there for the OSHA Amputation training. They will send you to the yellow brick building. Park in the lot and go to the top floor. Once you get to the top floor go to your left, the training room is at the end of the hallway.

For those unable to attend in person, you may join us virtually via Teams. **To pre-register for the event, please reply via email to harmon.mark@dol.gov by Friday, November 6th.**
