

PROTECT THE  
**HEALTH** & Innocence OF CHILDREN  
INVESTIGATE  
**PLANNED PARENTHOOD**

The American College of Pediatricians warns that International Planned Parenthood Federation (IPPF) programs that are sexualizing children (with the support of UN agencies), are "one of the greatest assaults" on the health of children worldwide.

**Is your government  
funding dangerous IPPF  
programs in your schools  
or funding UN agencies  
that are funding IPPF?**

As one of the world's largest provider of comprehensive sexuality education, with over 60,000 affiliates in over 170 countries, IPPF is one of the greatest threats to children worldwide.

**Did you know:**

- IPPF Provides graphic, erotic, and often pornographic, sexuality education programs to children as young as age five?
- IPPF Teaches children they have a right to sexual pleasure, instructs them in masturbation and encourages children to engage in high-risk sexual acts—often without the knowledge or consent of parents?
- IPPF Makes millions of dollars by sexualizing children, creating lifelong customers in need of their services such as sexual counseling, condoms, contraceptives, abortions, testing, treatment and care for STDs including HIV/AIDS?

See for yourself the **Undeniable evidence** of how **IPPF is destroying the health & innocence of children**. It only takes a few minutes to go to the links below.

**"IT'S ALL ONE"** an IPPF-supported curriculum intended for school children, instructs them on how to stimulate their partner to orgasm, promotes homosexual and heterosexual sex as a right for children, and references sexual pleasure over 50 times and abortion over 100 times.

**"HEALTHY, HAPPY, AND HOT"** aimed at young people with HIV, tells youth they don't have to tell their sexual partners they are infected, contains sexually explicit language and encourages casual sex with multiple partners (including oral, anal, and homosexual sex.)

**"IT'S PERFECTLY NORMAL,"** endorsed by and distributed by Planned Parenthood, contains graphic illustrations of both male and female naked children masturbating and having heterosexual and homosexual sex, teaching them this is all perfectly normal.

# SIGN THE LETTER TO PROTECT THE **HEALTH & Innocence OF CHILDREN**

## Dear UN Secretary General Antonio Guterres & UN Ambassadors:

We would like to bring to your attention a serious matter concerning the protection of the health and innocence of the world's children.

You may be aware that Planned Parenthood Federation of America, the U.S. affiliate of International Planned Parenthood Federation (IPPF) has been under criminal investigation in the United States for harvesting and selling the body parts of aborted babies.

However, you may not be aware that through many of their 65,000 service points in over 170 countries, IPPF is promoting promiscuity, sexual pleasure and high-risk sexual behavior (including bondage and sadomasochistic sex) to children, under the guise of UN-mandated sexual education and counseling.

### Please consider the following alarming facts:

- At the UN and across the world, IPPF has openly distributed their dangerous publication "Healthy, Happy, and Hot" for HIV-infected minors that, among other things, teaches children about anal and oral sex, tells them they have a right to sexual pleasure, and tells HIV-infected youth they do not have to tell their sexual partners they are infected with HIV.
- IPPF has also distributed the highly controversial "It's All One" sexuality education curricula at the UN and in many countries to indoctrinate children in IPPF's radical and harmful sexual rights agenda. For example, "It's All One" among other things, references sexual pleasure over 62 times and is replete with instructions on how children can obtain sexual pleasure through various risky sex acts.
- IPPF is one of the largest providers of sexual education for children in the world and partners with and receives millions of dollars from multiple UN agencies.
- As one of the largest abortion and "sexual health" providers in the world, IPPF and their affiliates benefit financially from sexually active youth who need their services, such as sexual counseling, condoms, contraceptives, abortions, HIV and other STI testing and treatment, etc. This creates a serious conflict of interest any time Planned Parenthood entities are involved in the sex education of children.

Therefore, to protect the health and innocence of children worldwide, we, as officers of governments, members of civil society, medical and mental health professionals, concerned citizens and parents, respectfully request that the United Nations and UN Member States investigate the harmful practices of Planned Parenthood at the international, national, and local levels and to stop partnering with and/or funding Planned Parenthood.

### We strongly urge the United Nations, specifically,

1. **To establish a committee to conduct a comprehensive investigation into all UN associations or partnerships with International Planned Parenthood Federation** and their affiliates, including any UN funding of their activities.
2. **To investigate IPPF's harmful teachings to minors on issues of sex, sexual pleasure and sexuality** using objectionable, sexually explicit or pornographic materials.
3. **To investigate IPPF's abortion practices** to determine if they are harvesting and selling aborted baby body parts.
4. Upon finding evidence showing they are harming children, to **consider rescinding the UN consultative status of IPPF** and their affiliates and to **cease all funding** of their programs and activities.

Please join with us in protecting the world's children. More documentation regarding the harmful activities of Planned Parenthood can be found at [InvestigateIPPF.org](http://InvestigateIPPF.org).

Together we can protect the world's children!

*Sincerely,*
