

Dear

**[UN Secretary General Antonio Guterres and the UN Ambassadors from all 190 UN Member States to be listed here]**

*We are writing to you regarding a serious matter concerning the protection of the health and innocence of the world's children.*

*You may be aware that Planned Parenthood Federation of America, the U.S. affiliate of International Planned Parenthood Federation (IPPF) that holds consultative status with the United Nations, is currently under investigation by the United States Congress for harvesting and selling the body parts of aborted babies.*

*Recently, even more disturbing evidence has come to light revealing how Planned Parenthood is also promoting promiscuity and high-risk sexual behavior to minors under the guise of sexual education and counseling. They are claiming this is in accordance with state obligations created by international human rights instruments.*

*(See “Comprehensive Sexuality Education.org, AbortPlannedParenthood.org, PlannedParenthoodExposed.com)*

*At the United Nations, Planned Parenthood has been openly distributing harmful materials to children, including their dangerous publication “Healthy, Happy, and Hot” for HIV-infected minors. This IPPF publication teaches children how to engage in various high-risk sexual behaviors such as anal and oral sex, promotes a right to sexual pleasure for children, and tells HIV-infected youth that, among other things, they do not have to tell their sexual partners they are infected with HIV.<sup>1</sup>*

*Through Planned Parenthood's 65,000 service points in over 170 countries, they promote the right to sexual pleasure for children at any age. IPPF also is one of the largest abortion providers in the world, thus they stand to benefit*

---

<sup>1</sup> The following are quotes from the IPPF publication, “Healthy, Happy and Hot”:

1. “Young people living with HIV have the right to sexual pleasure Sex can feel great and can be really fun! Many people think sex is just about vaginal or anal intercourse... But, there are lots of different ways to have sex and lots of different types of sex. Sex can include kissing, touching, licking, tickling, sucking, and cuddling. Some people like to have aggressive sex, while others like to have soft and slow sex with their partners. There is no right or wrong way to have sex. Just have fun, explore and be yourself!”

2. “It’s your body. You choose what you do, when you do it, how and with whom.”

3. “Play with yourself! Masturbation is a great way to find out more about your body and what you find sexually stimulating. Don’t stop there: Find out how your partner’s body work.”

4. “Talk about or act out your fantasies. Talk dirty to them.”

5. “Some people have sex when they have been drinking alcohol or using drugs. This is your choice.”

This brochure also falsely states that sexual rights relating to a person’s sexual orientation and gender identity are recognized around the world as human rights.

*financially from the consequences of child promiscuity, including by providing services such as sexual counseling, condoms, contraceptives, abortions, HIV and other STI testing and treatment, etc. This constitutes a serious conflict of interest when they are involved in the sex education of the world's children.*

*Therefore, we as concerned officers of governments and members of civil society respectfully request that the United Nations investigate the practices of Planned Parenthood at the international level, national, and local levels.*

*We strongly urge the United Nations, specifically,*

- (1) To establish a committee to conduct a comprehensive investigation into all UN associations or partnerships with International Planned Parenthood Federation and their affiliates, including any UN funding of IPPF and their affiliate's activities,*
- (2) To investigate IPPF's and their affiliate's abortion practices, their potential harvesting and selling of aborted baby body parts, and their teachings to minors on issues of sex, sexual pleasure and sexuality using objectionable, sexually explicit or pornographic materials,*
- (3) To cease all funding of or activities with Planned Parenthood organizations until such investigations have been concluded, and*

*Signed,*

*(The following signatures already represent over 4 million people across the globe. Sign the petition online to add your name or your organization's name to this petition.)*

***Sharon Slater, President of Family Watch International, on behalf of the UN Family Rights Caucus***
