***What is something unique or descriptive about your church?***

We emphasize carrying the kingdom everywhere we go and worship in all we do. We are located next door to the University. We have a bent for worship and to impact the West University District.

***What is happening within the church that you are excited about?***

Several faithful lay leaders have stepped into expanding and deepening our neighborhood impact ministry and prayer ministry. The renewal in those 2 areas is an answer to prayer and has tangible impact

***What are one or two prayer needs within the church?***

We have developed a fresh layer of lay leadership to carry out the vision of the church. Pray for these as they use their gifts.
