What is something unique or descriptive about your church?

We are an 8 year old church plant on the northwest side of Tucson.

What is happening within the church that you are excited about?

We are seeing many salvations and baptisms. We have had 186 baptisms to date. We are also seeing people grow in their walk with God over 35% of our adults are plugged into a lifegroup.

What are one or two prayer needs within the church?

We are praying to see more people come to Jesus and we desire to see 50% of our adults get plugged into a life group for our fall semester. We are in a very small facility 4600 sq ft running 4 services. We truly need our own property and facility.
