What is something unique or descriptive about your church?

Our church is focused on serving the homeless in downtown Tucson. We have been serving them about seven years. We serve them with the Word of God, with food, and daily necessity items six days a week at different parks and at our church.

What is happening within the church that you are excited about?

We see the results of our ministry of serving the homeless: families are reunited; broken relationships are healed. We worship with these brothers and sisters, who are restored from their addictions and now they are worshiping God. They found the way and the life. Watching this is exciting. Praise God!

What are one or two prayer needs within the church?

We want to buy a unit for these brothers and sisters to be able to stay and continue their training, to be Jesus' disciples and serve others as well. It is an urgent need for them to connect with right resources/organizations to support each other.
