

Community Support Helps Revitalize Tri-Counties Community Center

Before

After

For years, Tri-Counties Community Center at 1830 B Street in Marysville has provided a place for people of all ages to come together, learn, and have fun. From Seniors on the Go and roller skating to drumming, archery, improv, arts and crafts, and more, the center offers a variety of activities that bring the community together.

Now, thanks to Nor-Cal Siders and its Step Up community initiative, the center has received critical structural repairs that will help keep its doors open for the community. The exterior renovation and demolition work was completed in September, giving the building a fresh new look.

The next phase of the project will focus on the interior, including a kitchen remodel, restroom improvements to increase accessibility, new flooring, and other essential upgrades.

Tri-Counties Community Center extends its sincere thanks to the more than 50 businesses and individuals that have already stepped up to support the renovation.

Don't miss the Free Community BBQ on Saturday, November 7 | 11:00 am – 4:00 pm at the Center.

Attendees can learn more about the renovations already completed, plans for the next phase, and the programs and activities available at the Center.

Additional donations and business partnerships are still needed to help complete the interior improvements. To find out how to get involved by sponsoring the project, volunteering, donating materials/services, or making a financial contribution, visit [Nor-Cal Siders Step Up](https://www.norcaliders.com/step-up), email info@norcaliders.com or call (530) 443-2851.
