
BRAIN

INITIATIVE

Congressional BRAIN Investigators Reception

In cooperation with the Congressional Neuroscience Caucus

Speakers

Walter J. Koroshetz, MD

Director, National Institute of Neurological Disorders and Stroke

Joshua A. Gordon, MD, PhD

Director, National Institute of Mental Health

James O. Deshler, PhD

Deputy Division Director, Division of Biological Infrastructure, National Science Foundation - *invited*

You're invited to an evening reception celebrating the Brain Research through Advancing Innovative Neurotechnologies (BRAIN) Initiative and the researchers who are helping advance our understanding of the body's most complex organ. By accelerating the development and application of innovative technologies, researchers will be able to produce a revolutionary new dynamic picture of the brain that, for the first time, shows how individual cells and complex neural circuits interact in both time and space. This will lay the groundwork for new treatments for brain-related afflictions. This event will give you the opportunity to learn about this exciting public-private program and meet BRAIN-funded researchers.

Wednesday, April 10, 2019

5:00 PM – 7:00 PM

Kennedy Caucus Room – Russell Senate Office Building

RSVP to Kelly Baker at crdfellow2@dc-crd.com

Light refreshments will be served.

The briefing is being hosted by the American Brain Coalition in partnership with the Allen Institute, the Kavli Foundation, the Simons Foundation, and the Society for Neuroscience in cooperation with the Congressional Neuroscience Caucus.

This widely-attended event complies with all appropriate regulations.
