**CONGRESSIONAL BRIEFING ON METASTATIC BREAST CANCER**

It’s estimated that more than 155,000 women and men in the U.S. are living with metastatic breast cancer. It is Susan G. Komen’s goal to ensure that policymakers understand and prioritize the needs of the women and men impacted by breast cancer, especially those living with metastatic breast cancer (MBC).

Please join Susan G. Komen’s Center for Public Policy to learn more about metastatic breast cancer, the impact of the disease on patients and what we can do to create broad, systemic changes that will expand access to high-quality, affordable care for all patient populations and improve outcomes.

**Thursday, March 12th**
**12:00 - 1:30 p.m.**
**Rayburn House Office Building**
**Room 2060**
