

West Bank News:

Job Creation project together with the medical support has been a priority.

A Job Creation Project launched in November 2023 has **provided vital employment opportunities for over 180 individuals affected by the war** and struggling to find work. From November 2023 through December 2024, this initiative has brought hope to these individuals and their families by connecting them with much-needed jobs. With the situation remaining challenging, the project will continue throughout 2025 with plans to hire an additional 200 people. Continued support will be crucial in making this ambitious goal a reality.

Medical support:

As you all know the medical system is collapsed here in the land and many people have no health insurance. **During the year 2024 over 151,000 Dollars have been spent on Medicine, health insurance, and surgeries**, it is still a high demand as the situation in the West Bank is not getting better.
