

CARING FOR YOUR PARENTS:
EDUCATION FOR THE FAMILY CAREGIVER®

It's a question many of us begin to ask ourselves as we grow older:

Is it possible for me to stay in my longtime home, or choose another place in which to age?

This workshop will help you:

- Make a plan to start the conversation about where a senior loved one or you would like to age.
- Discover the home pitfalls that could jeopardize someone's safety and independence.
- Identify the remodeling and design changes that could help an individual age in place.
- Recognize the technologies that could assist someone in the home and keep that individual safer, and understand the value of cultivating and maintaining that human touch.
